Legal Counsel

The Lake County Land Reutilization Corp. (land bank) in conjunction with the Attorney General, Mike DeWine's Moving Ohio Forward Demolition Program is excited to announce the implementation of the program's first phase here in Lake County.

On Monday, September 30th the first house located at 7395 Primrose Drive in Mentor-on-the-Lake is scheduled to be taken down by Medico Systems, Inc.

The Moving Ohio Forward Demolition Program provides funding to assist in the removal of abandoned and blighted residential structures in an effort to strengthen neighborhoods and communities. Once the structure has been removed, the property is returned to a clean grass seeded lot with an eye towards future development.

Individual communities throughout Lake County have identified 60 residential structures that meet the criteria of the Attorney General's program. Each of these communities are currently collaborating with the Lake County Land Bank to take advantage of the funds made available by the Attorney General. It is anticipated that the continued implementation of this program will address between five and ten properties with each phase. The land bank's goal is to have all of these structures torn down by early spring of next year, if not sooner.

An onsite news conference at the Primrose property is scheduled for 11:30 a.m. Monday.

For more information please contact John M. Rogers, Executive Director of the Lake County Land Reutilization Corporation at 440.350.2133.
